Drawing Bar graphs
Example

Mbabazi sold **30** *litres* of milk on Monday, **40** *litres* on Tuesday, **25** *litres* on Wednesday, **45** *litres* on Thursday, **50** *litres* on Friday and **35 litres** on Saturday. Use the information and draw a bar graph.

Tabulate to simplify the information

Days	Monday	Tue	Wed	Thursday	Friday	Sat
No. of litres	30	40	25	45	50	35

Vertical scale
1sq: **10** *litres*
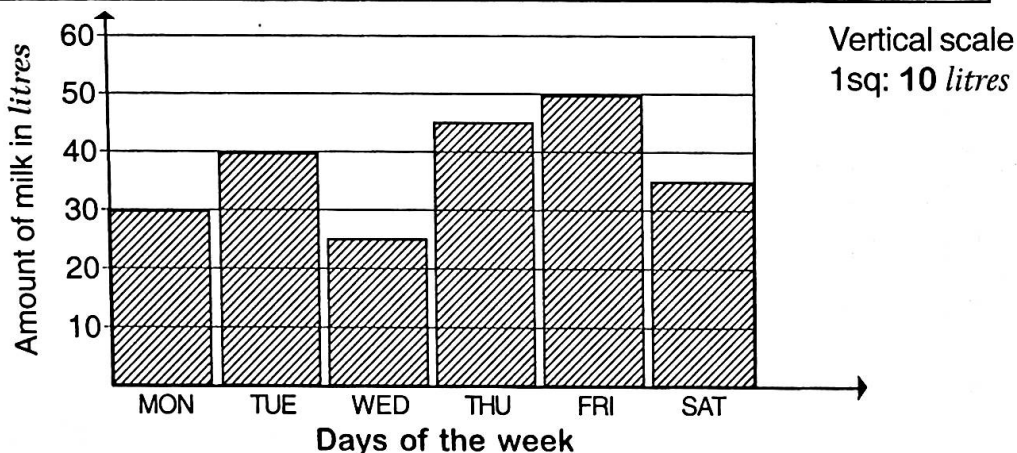

Exercise 8:1 Attempt the following:

1. A girl obtained the following marks in 5 subjects. Maths **70%**, English **60%**, Science **80%**, Social studies **50%** and Art & Craft **60%**. Use the information and draw a bar graph.(vertical scale - **1** sq: **20%**).

2. A woman spends her income as follows *sh.***1000** on transport, *sh.***2000** on drinks, *sh.***3500** on food and *sh.***2500** on other things. Draw a bar graph for the information above.(vertical scale - **1** sq: *sh.***1000**).

3. A boy spent his pocket money as shown below. *sh.***400** on books, *sh.***600** on transport, *sh.***800** on a geometry set and *sh.***500** on eats. Draw a bar graph for the information above. (vertical scale - **1** sq: *sh.***200**).

   For numbers 4 and 5 draw bar graphs for the tables.

4. The table below shows the marks obtained by a boy in 6 weeks.

Week	1st	2nd	3rd	4th	5th	6th
% mark	30%	50%	40%	70%	80%	60%

5. The table below shows points scored by seven clubs in the super league.

Team	KCC	Express	Villa	Police	Simba	Nile FC	Kinyara
Points	68	69	72	55	49	58	47
